PROFESSIONAL PROFILE

Computer Science undergraduate at BRAC University with hands-on experience in machine learning research, full-stack applications, and software systems. Builds practical solutions from data preparation and model experimentation to web interfaces and backend integration. Particularly interested in applied AI, software engineering, and intelligent systems.

TECHNICAL SKILLS

PROGRAMMING	Python · JavaScript / TypeScript · C / C++ · SQL · 8086 Assembly
WEB & BACKEND	React · Next.js · Node.js · Express.js · FastAPI · REST APIs
DATA & AI	Machine Learning · Neural Networks · Data Processing · GNN / BERT Concepts
TOOLS	PostgreSQL · Git / GitHub · Jupyter Notebook · VS Code · OpenGL

SELECTED PROJECTS & RESEARCH

Road Deterioration Prediction MACHINE LEARNING · RESEARCH

Developed a prediction-oriented ML workflow using road and environmental data, incorporating preprocessing, feature engineering, model evaluation, and data-leakage-aware experimentation.

GNN–BERT Music Context DEEP LEARNING · NLP

Worked on a research-oriented system combining graph-based learning and contextual language representations for music-context analysis; prepared a technical project report.

MediTrack — Healthcare Management Platform FULL-STACK · TEAM PROJECT

Contributed diet/calorie logging features and application integration using React, TypeScript, Node.js, Express.js, PostgreSQL, and REST APIs.

Global River Database (GRD) NEXT.JS · WEB APPLICATION

Contributed Next.js frontend improvements and backend integration updates to a collaborative river-information platform.

LiveGPS — Location Visualization REACT · OPENSTREETMAP

Built an interactive mapping application supporting location broadcasts, map interaction, and simulated real-time tracking.

Additional project Parking Management System — 8086 assembly-language application.

EDUCATION

BRAC University | Bachelor of Science in Computer Science

Relevant coursework: Neural Networks, Software Engineering, Data Structures & Algorithms, Database Systems, Compiler Design, Computer Graphics.
